Summary

Bringing more than 2 years of experience leading website design projects, including gathering user requirements, producing code, enhancing designs. Focused on creating clean, robust code with exceptional security. Achieves compatibility targets while meeting and exceeding customer demands. Driven by an insatiable curiosity and a knack for problem-solving, I'm always eager to explore new frontiers in technology

PROFESSIONAL EXPERIENCE

Neeya Fashion ,Lagos, Nigeria

2023 – Present

Front-end Developer

- Coded using ReactJS, Tailwind Css to develop features for both mobile and desktop platforms.
- Designed and updated layouts to meet usability and performance requirements.
- Performed user experience quality assurance testing to identify and remedy shortcomings.
- Completed full redesigns of existing websites to improve navigation, enhance visuals and strengthen search engine rankings.
- Utilized version control systems such as Git to track changes throughout the development process.

Full-stack MERN Blog App

2024

Full-stack Developer

- Single-handedly implemented robust security measures for protecting sensitive user data and maintaining application integrity.
- Developed user-friendly web forms with validation and error handling.
- Enhanced user experience by developing responsive web designs for seamless cross-device compatibility.
- Planned and engineered RESTful web services to manipulate dynamic datasets.
- Mastered new technologies and frameworks within a tight deadline, proving my dedication to learning

EDUCATION

Onabisi Onabanjo University

2022

Professional Diploma in Computer Engineering

GOMYCODE Full-stack Development Bootcamp

2023

- Mastered the MERN stack, focusing on advanced server-side and client-side development concepts.
- Honed problem-solving and analytical skills through challenging hands-on projects.
- Conceived and built optimized landing pages for integration and cross-browser compatibility.

TECHNICAL SKILLS

- **Frontend : ReactJs, Html, Css, Javascript, Tailwind CSS**
- **Backend : NodeJs , Express**
- **Databases : MongoDB**
- **APIs : RESTful APIs**
- **Version Control : Git**
- **Tools : Github, Postman**
